
Group Leader / Principal Metallurgist

Toronto (Mississauga), Ontario

(FILE REFERENCE: LPM-2017)

We are recruiting this position on behalf of our Client, a globally respected, Consulting Engineering firm. The Lead / Principal Metallurgist will mentor and lead a high potential team of professionals from their Canadian offices, on projects that span North America, and the globe.

Key Accountabilities:

This key leadership role requires a candidate with proven experience in the minerals sector, strong organizational skills and an exceptional ability to develop people and build strong rapport with clients.

Essential Qualifications and Experiences include:

- Proven experience in a Lead / Principal role elsewhere and with overall accountability for projects and managed studies.
- Successful Client relationship management skills.
- Comfort-level being a 'hands on' metallurgist who can guide / lead / mentor junior metallurgists.
- Well-rounded Metallurgical skills. Lab test work program development experience essential.
- Ability to create and develop flowsheets and design criteria.
- Superior writing skills including Metallurgical reports and process narratives.
- 243-101 experience and QP qualifications important.

A competitive compensation package is on offer including market-leading salary, incentive plan, comprehensive group health benefits and retirement savings plan. For further consideration, highly qualified Candidates are invited to submit their resume information in confidence, quoting the above file number.
